DIRECTIONS

This Independent Practice is for Lesson 4.08.01.
Show your work in the box. Write your final answer on the line.
Read each problem carefully. Use a model or picture if it helps.
If you get stuck, re-read the question and look at any example you already worked through in the lesson.

1 Multiply — small unit fractions

Multiply the whole number by the top number of the fraction. Keep the bottom number the same.
Express the answer as a fraction or mixed number in simplest form.
(a) 3 × 1/9 (b) 5 × 1/3 (c) 5 × 1/8 (d) 5 × 1/5

MULTIPLY WHOLE × TOP; KEEP BOTTOM

(a) ___ **(b)** ___ **(c)** ___ **(d)** ___

2 Multiply — bigger whole numbers

Same procedure. Convert to a mixed number when the result is improper.
(a) 16 × 1/5 (b) 16 × 1/6 (c) 7 × 1/12 (d) 8 × 1/10

MULTIPLY + CONVERT IF IMPROPER

(a) ___ **(b)** ___ **(c)** ___ **(d)** ___

3 Multiply and simplify

Each result will simplify or convert. Express in simplest form.
(a) 6 × 1/3 (b) 20 × 1/4 (c) 8 × 1/5 (d) 10 × 1/8

MULTIPLY + SIMPLIFY OR CONVERT

(a) ___ (b) ___ (c) ___ (d) ___

4 Word problem — Mia's jug

Mia has an empty 4-liter jug. She pours in water using a cup that holds 1/3 of a liter.
She pours 10 cups of water into the jug.
(a) How much water did Mia pour into the jug, in liters? Give the answer as a mixed number.
(b) How much MORE water could the jug hold before it is full?

POURED = 10 × 1/3 L; LEFT = 4 – POURED

(a) Poured: ___ L (b) Room left: ___ L

5 Critical thinking — picture it

Show 5 × 1/3 with a picture. Draw 5 circles. Shade 1/3 of each.
Use your picture to explain why the answer is 5/3 = 1 and 2/3.

DRAW 5 CIRCLES; SHADE 1/3 EACH

Sum: ___
