

Name: _____

Date: _____

DIRECTIONS

This Independent Practice is for Lesson 4.03.03.

Show your work in the box. Write your final answer on the line.

Read each problem carefully. Use a model or picture if it helps.

If you get stuck, re-read the question and look at any example you already worked through in the lesson.

1 List all factor pairs

Try 1, 2, 3, 4... in order. Write every factor PAIR that multiplies to the number. Stop when the pairs start to repeat.

(a) 12 (b) 18 (c) 24

WRITE EACH PAIR AS $A \times B$

(a) ____ (b) ____ (c) ____

2 Is it a factor? Use division

A factor divides evenly (NO remainder). Decide YES or NO and show the check.

(a) Is 4 a factor of 28? (b) Is 5 a factor of 36?

(c) Is 7 a factor of 56? (d) Is 6 a factor of 50?

SHOW EACH DIVISION CHECK

(a) ____ (b) ____ (c) ____ (d) ____

3 List all the factors (not just pairs)

Find every factor of each number. List them smallest to largest.

(a) 16 (b) 20 (c) 30

FACTOR PAIRS, THEN LIST ALL THE FACTORS

(a) ____ (b) ____ (c) ____

4 Find the missing factor

One factor is given. Find its pair.

(a) $3 \times \underline{\quad} = 27$ (b) $4 \times \underline{\quad} = 32$

(c) $\underline{\quad} \times 6 = 42$ (d) $\underline{\quad} \times 8 = 64$

DIVIDE TO FIND EACH PAIR

(a) ____ (b) ____ (c) ____ (d) ____

5 Word problem - Atlas's marbles

Atlas has 36 marbles. He wants to put them in equal groups with no marbles left over.

(a) List every possible group size (every factor of 36).

(b) If he wants groups of EXACTLY 8, can he do it? Why or why not?

LIST FACTORS OF 36; CHECK 8

(a) ____ (b) ____
