

Name: _____

Date: _____

DIRECTIONS

This Independent Practice is for Lesson 4.09.04.

Show your work in the box. Write your final answer on the line.

Read each problem carefully. Use a model or picture if it helps.

If you get stuck, re-read the question and look at any example you already worked through in the lesson.

1 Soccer goals — find all three

The Lions soccer team scored these goal counts in their last 9 games:

1, 0, 2, 3, 2, 4, 2, 1, 3

(a) Reorder the data.

(b) Find the MODE, MEDIAN, and RANGE.

REORDER; MODE / MEDIAN / RANGE

(a) ordered: ____ (b) M ____ M ____ R ____

2 Class heights — pick the right measure

A 4th-grade teacher needs to order new chairs for her class. She measured the heights of all 11 students (in inches):

52, 51, 53, 50, 52, 49, 53, 51, 52, 50, 51

(a) Find the MODE.

(b) Find the MEDIAN.

(c) Which would she most likely use to pick a chair size for MOST students — the mode, the median, or the range?

Explain your reasoning.

COMPUTE BOTH; THEN EXPLAIN

(a) ____ (b) ____ (c) ____

3 Reading minutes — line plot question

A class made a line plot of nightly reading minutes. The X's are arranged like this:

10 min: 2 X's 20 min: 5 X's 30 min: 7 X's 40 min: 3 X's 50 min: 1 X

(a) How many students are in the class total?

(b) What is the MODE?

(c) What fraction of the class read FEWER THAN 30 minutes? Express in simplest form.

ADD ALL X COUNTS; PART/TOTAL

(a) ____ (b) ____ (c) ____

4 Stem-and-leaf — birthday gift counts

A stem-and-leaf plot of gifts received at 10 birthday parties shows:

Stem 0 | Leaves 5, 7, 8

Stem 1 | Leaves 0, 2, 2, 5

Stem 2 | Leaves 1, 4, 8

(a) List the original data values.

(b) Find the MODE.

(c) Find the MEDIAN.

(d) Find the RANGE.

STEM + LEAF = VALUE; THEN STATS

(a) ____ (b) ____ (c) ____ (d) ____

5 Pick the right plot

Your friend wants to display the heights (in cm) of 30 plants that range from 12 cm to 96 cm.

(a) Would a LINE PLOT or a STEM-AND-LEAF PLOT be easier to read? Why?

(b) If the data were only the values 2, 3, 4, and 5 (with lots of repeats), would your answer change? Why?

COMPARE THE TWO PLOT TYPES

(a) ____ (b) ____
