

Name: _____

Date: _____

DIRECTIONS

This assessment covers lessons 4.06.01 to 4.06.03.

Show your work in the box. Write your final answer on the line.

Read every problem carefully. Some problems have more than one part — answer ALL parts.

Take your time. Check your work before you turn in.

1 Build equivalents ($\times n/n$)

Fill in the missing numerator.

(a) $1/3 = ?/12$ (b) $3/4 = ?/20$ (c) $5/6 = ?/24$

MULTIPLY TOP AND BOTTOM BY n

(a) ____ (b) ____ (c) ____

2 Simplify ($\div n/n$)

Write each in simplest form.

(a) $6/9$ (b) $8/12$ (c) $24/32$

DIVIDE BY THE GCF

(a) ____ (b) ____ (c) ____

3 CompareCompare with $>$, $<$, or $=$.(a) $\frac{5}{8}$ ____ $\frac{7}{8}$ (b) $\frac{2}{3}$ ____ $\frac{5}{9}$ (c) $\frac{1}{2}$ ____ $\frac{2}{4}$

RENAME IF NEEDED

(a) ____ (b) ____ (c) ____

4 Order least to greatestOrder: $\frac{1}{3}$, $\frac{2}{3}$, $\frac{1}{2}$

USE COMMON DENOM

Least → greatest:

5 More or less than 1?

For each: less than, equal to, or more than 1?

(a) $\frac{5}{8}$ (b) $\frac{8}{8}$ (c) $\frac{9}{4}$ (d) $\frac{3}{10}$

COMPARE TOP TO BOTTOM

(a) ____ (b) ____ (c) ____ (d) ____

6 Two ways to write

Write 11 fourths shaded BOTH ways: as improper AND as a mixed number.

(2 whole pies + $\frac{3}{4}$ of one more)

IMPROPER + MIXED

Improper: ____ Mixed: ____

7 MODEL — equivalent pies

Draw two pies of the same size. Shade $\frac{1}{2}$ of one. Shade $\frac{4}{8}$ of the other.
Use the picture to explain why $\frac{1}{2} = \frac{4}{8}$.

DRAW BOTH PIES + EXPLAIN

My explanation:

8 EXPLAIN — common denominator

Why do you need a common denominator before comparing fractions like $\frac{2}{3}$ and $\frac{7}{12}$?
Use those numbers in your explanation.

WRITE YOUR EXPLANATION

My explanation:
