

Name: _____

Date: _____

DIRECTIONS

This assessment covers lessons 4.07.01 to 4.07.06 (entire unit).

Show your work in the box. Write your final answer on the line.

Read every problem carefully. Some problems have more than one part — answer ALL parts.

Take your time. Check your work before you turn in.

1 Same denom

Express in simplest form.

(a) $\frac{4}{8} + \frac{5}{8}$ (b) $\frac{9}{10} - \frac{5}{10}$ (c) $\frac{11}{13} - \frac{4}{13}$

TOPS ONLY; SIMPLIFY

(a) ____ (b) ____ (c) ____

2 Different denoms

Rename first.

(a) $\frac{3}{4} + \frac{7}{12}$ (b) $\frac{11}{14} - \frac{4}{7}$ (c) $\frac{9}{8} + \frac{11}{24}$

RENAME + OPERATE + SIMPLIFY

(a) ____ (b) ____ (c) ____

3 Mixed + fraction

Express in simplest form.

(a) $4\frac{6}{8} + \frac{3}{8}$ (b) $1\frac{2}{3} + \frac{7}{9}$

ADD FRACTIONS + REGROUP

(a) ____ (b) ____

4 Mixed + mixed

Two-column adding. Express in simplest form.

(a) $3\frac{2}{7} + 2\frac{4}{7}$ (b) $4\frac{5}{8} + 7\frac{7}{8}$ (c) $3\frac{3}{4} + 3\frac{7}{12}$

TWO COLUMNS + CARRY

(a) ____ (b) ____ (c) ____

5 Mixed – fraction (borrow)

Borrow when needed.

(a) $2 \frac{1}{4} - \frac{7}{12}$ (b) $6 \frac{1}{2} - \frac{7}{12}$ (c) $3 \frac{1}{6} - \frac{13}{18}$

BORROW + SUBTRACT + SIMPLIFY

(a) ____ (b) ____ (c) ____

6 Mixed – mixed

Same denominator. Borrow if needed.

(a) $9 \frac{7}{8} - 3 \frac{3}{8}$ (b) $6 \frac{1}{4} - 2 \frac{3}{4}$ (c) $7 \frac{3}{10} - 4 \frac{7}{10}$

TWO COLUMNS + BORROW

(a) ____ (b) ____ (c) ____

7 Mixed – mixed, different denoms

Rename + borrow.

(a) $7\frac{5}{16} - 2\frac{7}{8}$ (b) $6\frac{1}{3} - 3\frac{7}{12}$

RENAME + BORROW + COLUMNS

(a) ____ (b) ____

8 Word problem — fabric closerGina started with $10\frac{3}{8}$ yards of fabric. She used $4\frac{5}{6}$ yards on one project AND $1\frac{3}{4}$ yards on another.

How much fabric is left in simplest form?

TOTAL USED, THEN SUBTRACT

Left: ____ yd

9 MODEL — pies with regroup

Draw $4 \frac{5}{8} + 7 \frac{7}{8}$ with whole pies and a fraction pie. Show what happens when the fraction parts combine. Use the picture to explain why the answer is $12 \frac{1}{2}$, not $11 \frac{12}{8}$.

DRAW + EXPLAIN

Sum: ____

10 EXPLAIN — Unit 7 reflection

Across Unit 7 you learned: same-denom add/subtract, rename for different denoms, regroup, and borrow. Pick ONE move and explain when it shows up in real-world measurement (cooking, building, etc.).

WRITE YOUR REFLECTION

My explanation:
